## ABOUT ME

---

I am natural-born psychic, intuitive and medium. My unique gifts were discovered at the age of five and inherited from my Maternal Grandmother and several past generations thereof.

I credit my gifts to the grace of God and use them to receive and express spiritual messages through love and in-service. I welcome all religions, traditions, and spiritual paths. My commitment is also unparalleled within my practices and teachings. The unconditional love of my grandmother and knowledge of my Cherokee heritage played a major role in my spiritual path and desire to find truth beyond conventional teachings of religion and science. During this search for knowledge and truth, a mirage of life-changing events occurred. Through each process and lesson thereof, countless miracles were experienced, and I was spiritually guided to the knowledge that my true-life purpose is to help and teach others through my spiritual gifts and love.

My professional career of more than thirty years has been dedicated to wellness and helping others. I have an international following and have provided service to thousands of people all over the world through my counseling, spiritual mentoring, workshops, classes, courses and writings.

While continuing to fulfill my vision and life purpose, I am writing a series of books to be published.
